

Statewide Portable Equipment Registration Program
FORM 7 - Modification to an Existing Registration
 (Auto-fill format. Use "Tab" or up/down arrows to enter information)

1. Company Name:	
2. Registration Number:	
3. Indicate How Registration is to be Modified (choose one)	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Change of Ownership (\$75) Fill out a Form 1 (Company Information) </div> <p>The following may be changed as part of the Change of Ownership process:</p> <p>Company Unit ID number (recommended): _____</p> <p>General use of the engine or equipment unit: _____</p> <p>Home District Designation (required): _____</p> <p>Renewal Fees are required if the postmark date of the application is <u>within five months</u> of the current expiration date.</p> <div style="margin-top: 10px;"> <input type="checkbox"/> Engine Renewal: (See instructions for fees) </div> <p>or</p> <div style="margin-top: 10px;"> <input type="checkbox"/> Equipment Unit Renewal: (See instructions for fees) </div> <p>Proceed to Items 4 and 5 Below.</p>	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Identical Replacement (\$75) Fill out a form 1 (Company Information Page) </div> <p align="center">Note: An identical replacement is appropriate only for cases of mechanical breakdown of an engine or equipment unit.</p> <p>Serial number of the replacement engine or equipment unit: _____</p> <p>Engine Family Name for the replacement engine: _____</p> <p>Date engine/equipment unit was replaced: _____</p> <p>Date of mechanical breakdown: _____</p> <p>Attach documentation describing the mechanical breakdown.</p> <p>Proceed to Items 4 and 5 Below.</p>	
<div style="margin-bottom: 10px;"> <input type="checkbox"/> Modification to an Engine's or Equipment Unit's Configuration, Emission Control Equipment, or Operating Conditions (\$75) </div> <p>Explain changes to engine or equipment unit. Attach an emissions summary or design parameters if applicable.</p> <div style="margin-top: 5px;"> <input type="checkbox"/> Engine is designated as emergency use only (see instructions) </div> <div style="margin-top: 5px;"> <input type="checkbox"/> Engine is designated as a low use engine (see instructions) </div> <div style="margin-top: 5px;"> <input type="checkbox"/> Engine will be operated in State Territorial Waters (see instructions) </div> <p>Other: _____</p> <p>Proceed to Items 4 and 5 Below.</p>	
4. Name of Responsible Party:	Title:
5. Signature of Responsible Party:	Date:

NOTE: This form is specifically for modifications to an existing registration. Use this form only if the engine or equipment unit has an existing registration with the Air Resources Board.

Modification to an Existing Registration: *Please provide the following information:*

1. *Company Name* - Legal name on current registration
2. *Registration Number* - This is the unique number assigned to the engine or equipment unit and is listed on the Statewide Registration Program certificate.
3. *Indicate How Registration is to be Modified* - Check the box that best describes the action you wish:

Change of Ownership - Check this box if you have purchased an engine or equipment unit with an ARB registration. Attach **Form 1, General Information**, along with this **Form 7**.

Enter your company unit I.D. number. This is the number your company uses to identify the unit. For engines, indicate the type of unit the engine powers, i.e., generator, compressor, etc. Indicate the "home district" which is the one air pollution control or air quality management district in which this engine or equipment unit is most often operated. It is required that a home district be designated. If the engine is to be designated emergency or low use, you must fill out the modification section below and submit the additional fee. There are strict limitations for operation of engines so designated. Please review the Portable Diesel Engine ATCM to determine if your engine can comply with these limitations.

<http://www.arb.ca.gov/portable/perp/peatcm091207.pdf>

The fee is \$75 per registered unit for a change of ownership.

If the registration is within 5 months of the expiration date, please pay the upcoming renewal, inspection, and placard fees. The following renewal fees apply depending on multiple engine inspection discount level and whether or not the unit already has a placard. The discount amounts only apply to engines, not equipment units:

Discount Level	Renewal Fee	Fee if unit has placard
No discount	\$575.00	\$570.00
25% discount : 4 – 9 engines inspected at one time	\$488.75	\$483.75
35% discount: 10 or more engines inspected at one time	\$454.25	\$449.25
Equipment units (no discount available)	\$305.00	\$300.00

IMPORTANT - The 25% discount requires 4 to 9 engines and the 35% discount requires 10 or more engines to be inspected together. Failure to have the engines at the agreed upon location may result in district enforcement action.

Identical Replacement - Check this box if the existing engine or equipment unit is being replaced by an identical engine or equipment unit. **An identical replacement is appropriate only for cases of mechanical breakdown of an engine or equipment unit.** Attach **Form 1, General Information**, along with **Form 7**. You must notify us in writing within 5 calendar days of replacing the engine or equipment unit with an identical replacement. Notification shall include company name, responsible official, phone number, registration certificate number of the portable engine or equipment unit to be replaced; and make, model, rated brake horsepower, serial number, and engine family name of the identical replacement, description of the mechanical breakdown; and applicable fees. Remove the sticker from the engine or equipment unit and return the sticker with this form. The fee is \$75 per unit and you may operate the equipment after mailing this form to the ARB.

Modification to an Engine's or Equipment Unit's Configuration, Emission Control Equipment, or Operating Conditions - Describe the change in operation or status and how the changes affect the configuration and/or the emission control equipment. If necessary, attach appropriate manufacturers specifications or design parameters. The fee for modification is \$75 per engine or equipment unit. If the modification is to designate the engine as emergency or low use, check the appropriate box. There are strict limitations for operation of engines so designated. Please review the Portable Diesel Engine ATCM to determine if your engine can comply with these limitations. <http://www.arb.ca.gov/portable/perp/peatcm091207.pdf> If the modification is to allow the engine to operate in State Territorial Waters (0 to 3 miles offshore), then check the appropriate box.

4. – 5. *Name, Title, Date, and Signature of Responsible Party* – Name and official title of person signing and dating form. (Application will not be accepted unless signed and dated.)
